Installation Guide

H/J 125V/95V

1

Pre-install J type
Screw (not fully tightened)
Pre-install **J** type on the edge of the board prior to starting **H** type installation. Then, loosely secure the board with screws (Don't fully tighten yet) and slide **H** type over onto the board so that the board sits firmly within the Joiner.
2

Tighten the screw
Secondary Board
Tighten the screws and insert the second board into the Joiner.

3

Pre-install J type

Pre-install the **J** type on the edge of the last board. Secure the second board with screws.
HAT V5

1

Board
Gap
RC · Block

Install the boards leaving the appropriate gap for the HAT V5 Joiner.

2

HAT V5
RC · Block

Mount the HAT V5 Joiner by inserting the protrusion into the gap between the boards.

3

Putty and paint
RC · Block

Apply putty and paint over the surface to cover the wings of the HAT V5 Joiner.
